

These offer high impedance for single turn applications, e.g. EMI suppression of 4, 7, 9 and 13mm coaxial cable used for data transfer between computers and hardware, e.g. computer keyboard and printer cables.

Tubes - Component specifications

Part No.	Dimensions (mm)			Material Grade	Core Constant C_1 (mm ⁻¹)	Single turn impedance $Z(\Omega)$:		
	O.D. (A)	I.D. (B)	Length (C)			10MHz	25MHz	100MHz
9.5x4.8x14.5/ F19	9.50	4.80	14.50	F19	0.635	47	78	115
